Run

Output

Enter number of memory blocks: 5
Enter block sizes:
100 500 200 300 600
Enter number of processes: 4
Enter process sizes:
212 417 112 426

1. First Fit
2. Best Fit
3. Worst Fit

Enter choice: 1

Process 1 allocated to Block 2
Process 2 allocated to Block 5
Process 3 allocated to Block 2
Process 4 cannot be allocated
