

main.c

Run

Output

```
1 #include <stdio.h>
2 #include <string.h>
3 int main() {
4     char files[20][20];
5     int n = 0, choice, i;
6     char name[20];
7     while (1) {
8         printf("\n--- Single Level Directory ---\n");
9         printf("1. Create File\n");
10        printf("2. Delete File\n");
11        printf("3. Search File\n");
12        printf("4. Display Files\n");
13        printf("5. Exit\n");
14        printf("Enter choice: ");
15        scanf("%d", &choice);
16        if (choice == 1) {
17            printf("Enter file name: ");
18            scanf("%s", name);
19            strcpy(files[n], name);
20            n++;
21            printf("File created successfully.\n");
22        }
```

```
--- Single Level Directory ---
1. Create File
2. Delete File
3. Search File
4. Display Files
5. Exit
Enter choice: 1
Enter file name: file1
File created successfully.

--- Single Level Directory ---
1. Create File
2. Delete File
3. Search File
4. Display Files
5. Exit
Enter choice: 1
Enter file name: file2
File created successfully.
